

Instructions for connecting the recuperator to the "Klimatronik" mobile app for Android

To get all the benefits of using Klimatronik recuperators, download the mobile app to your smartphone

1. Go to the "Klimatronik" app page on the Google Play by clicking on the button below:

- **2.** Download and install the app on your mobile device.
- **3.** Launch the app and follow the instructions below to connect the recuperator to Wi-Fi and add to the app.

Connection instructions

1. Click on the "Add new device" button.

2. Point the remote control at the recuperator and hold the "ON/OFF" button until the blinking Wi-Fi symbol appears on the display. Click "Next".

8. To see a list of added recuperators or add a new one, click the menu icon on the home screen and go to the "My Devices" screen.

How to quickly add a recuperator already connected to Wi-Fi to the "Klimatronik" app

So, the recuperator has been successfully connected to the Wi-Fi. In the future, you may want to add it to the app again (for example, on another phone).

This is done very quickly and easily.

First, make sure that the Wi-Fi symbol is constantly lit on the recuperator display.

Secondly, the recuperator and the mobile device with which you want to connect to it must be in the same Wi-Fi network.

Now follow the instructions below.

Instructions for adding a connected device

 Launch the app. Click the menu icon on the home screen. Go to the "My Devices" screen. In the "Available devices" section, click on the desired recuperator.
